

SMART FLUID CABINET

**COATING/
DISPENSING
MONITORING**

SMART MATERIAL STORAGE AND SUPPLY SOLUTION FOR PCBS

Automate the management and dispensing of protective material, optimizing availability, inventory levels, and waste reduction.

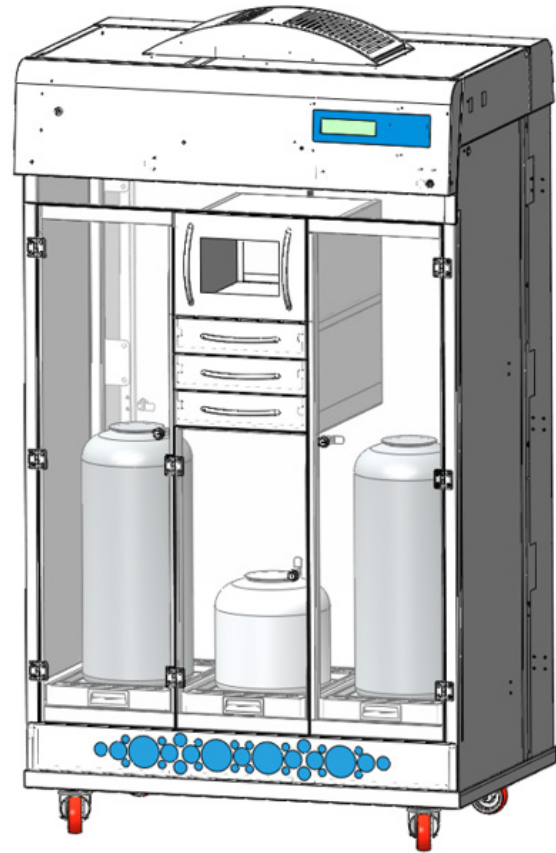

UNIQUE CONCEPT

CONFIGURATION

- Automatic material reservoir swap.
- Simplify coating process.
- Reduce operator failures.
- Keep the area clean / Safety access.
- Multi-fluid and evolutive concepts.
- Statistical control: monitors process quality.
- Sensors:
- Humidity and temperature control.
- Coating level.
- Flowmeter.
- Air bubble detector.
- Viscometer and more.

BENEFITS

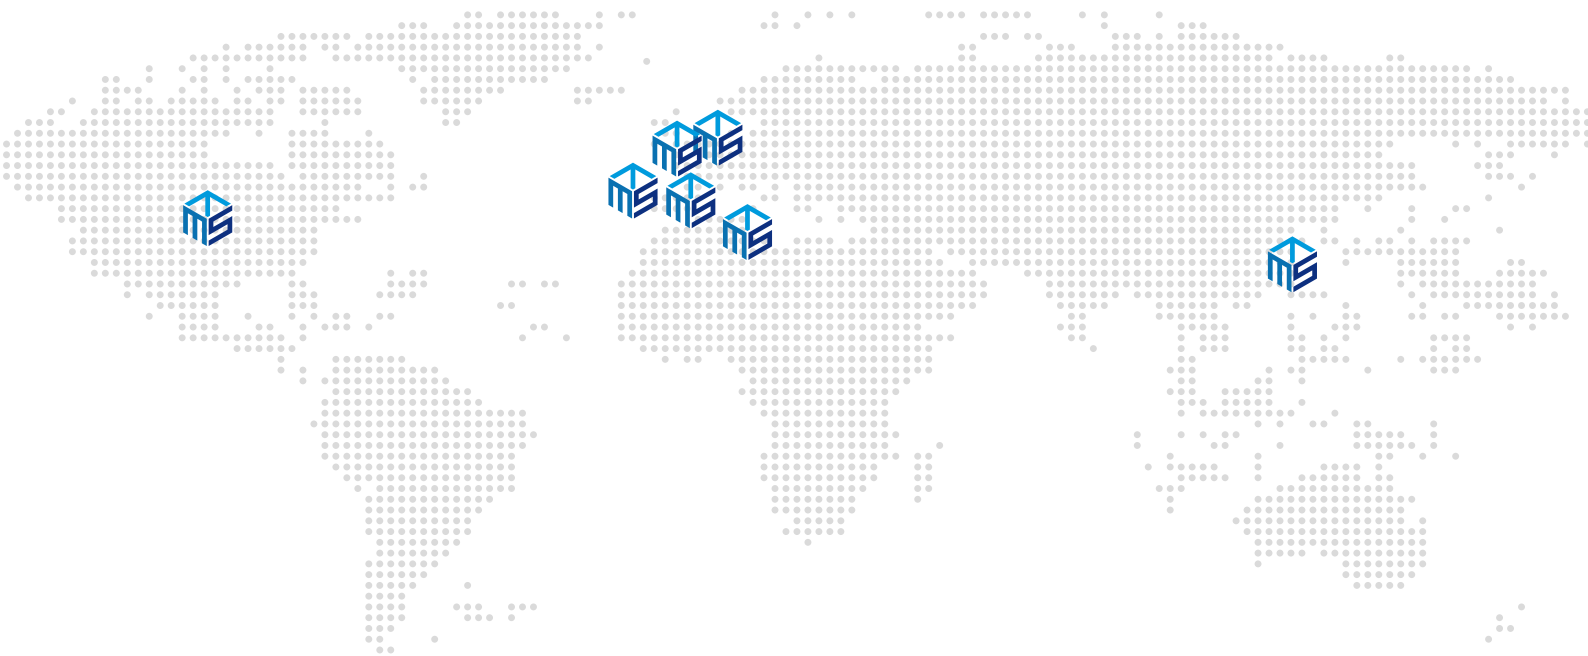

- » Micro-flow detection.
- » Effortless bubble detection.
- » Coating/dispensing monitoring.
- » **Automation** and material management facilitation.
- » **Traceability:** Inventory level optimization and waste minimization.
- » **Versatility:** Adaptable to multiple material dispensing applications.
- » **Production process optimization:** Complete material management from storage to supply
- » **Efficiency:** Automation of operations.

FEATURES

- » Product storage under proper conditions.
- » **Fluid management:** Fluid management administration and monitoring.
- » **Ergonomics** optimization.
- » Intuitive user interface
- » Compliance with safety standards
- » **Sensors:**
 - » Humidity and temperature control
 - » Coating level
 - » Flowmeter
 - » Air bubble detector
 - » Micro flow detection
 - » Easy bubble detection
 - » Viscometer and more
